Magic Mitering Class

Look what you can do with simple mitered borders. It looks like real 3-D keys. Whether it's words, letters, or symbols, you can use borders to add a lot of pizzazz to simple blocks. In our class, you'll learn the magic formula for adding double, even triple mitered borders and learn to use light/dark fabrics to add dimension. Just think what you can do with panels or fussy cut flowers, animals, etc.! Class is this Saturday,(11th). Sign up today!

Special Discount for Guild Member

Guild Member Discount day is February 10th (Friday) this month. Guild members who come in wearing their member badges will receive a 5% discount on fabric purchases.
